Baby, what's the easiest sign to know you'll get rich? Mmm. Probably if you have no friends right now, I'm not going to lie. Um, I genuinely think the richest people I know, they all started off barely having any friends and to this day they still have minimal friends. Um, and I think when you're broke, you allow everyone in your life, but when you start to get in the mindset where you know you want to get rich, you know you want to change your life, um, you know you want something more, you limit the amount of people in your life, and you obviously limit the quality of people because you're not doing what everyone else is doing. Um, I did that and now I'm a millionaire at 19 years old. So, and I barely have friends still to this day, and I'm rich, and I could probably go to the club right now and get 100 friends, but that's just not my quality of people. So, just know if you barely have friends right now, you will be rich.
