All right, I got to address this shit. This is getting out of hand. A lot of you motherfuckers are afraid of being alone, bruh. You guys act like you have to associate yourself with other people, bruh. You don't have to, my nigga. Who says you have to? Okay, especially if you generally know that you're not yourself when you're around these people, or these people aren't generally good for you, you're just playing this fucking act to like, be cool with them and shit, that's even worse, gang. Bro, I would rather have one to two people that I'm really, really close with, right? versus hanging out with 10 people. Or even I'd rather be alone, confident with myself, fucking cool with myself. I'm happy to be alone because I know who I am. I enjoy myself. I know I work hard on myself. I can make myself laugh. I know what I'm capable of. I know who I am. I'm confident in my own skin, and that's the issue with a lot of you guys. You guys aren't confident in your own skin to where you don't rely on other people for you to feel better. You guys need outside validation. No, you should get validation from yourself, from the things that you do on a day to day basis, from who you are, what your last name is, what you've done around the world. That's probably what the fuck it is. You guys aren't doing shit around the world. You guys aren't out there trying to achieve shit for yourself. Fucking hell. You do not need other people. You do not need a bunch of friends. You just need yourself and yourself only. That's it.
